

DASHMILE LUBTECH

Product Name:-

COOLANT

Product Description:

A COOLANT (also called an antifreeze) is a special fluid that runs through your engine to keep it within its correct operating temperature range. It is made from water, some protection additives and is usually green, blue or even pink in colour.

Application:

COOLANT is recommended for petrol, diesel, LPG & CNG engines used in cars, trucks, tractors and generators

Specifications:

Meets CONCENTRATE ENGINE COOLANT 1:3

Product Benefits:

- Excellent corrosion protection of entire cooling system containing multi-metal components of aluminium, cast iron, brass and other metals
- Prevents scale formation and hence radiator blockage
- Dilute with 5 parts of drinking water for best cooling efficiency
- Compatible for high pressure turbocharger fitted engines
- Recommended to change after 60,000 km of use
- Compatible to rubber and plastic components of cooling circuit • Foam and fungus free

Specification & Typical Properties:

Sr. No.	Tests	Method	Results
1.	Appearance	Visual	Clear & Bright
2.	Density @ 29.5°C	ASTM D 1298	1.073
3.	PH	ASTM D 1287	8.00
4.	Hard Water Stability	Proprietary	Stable
